

Sizzling Hot Deluxe

From worldwide land-based favourite, to instant online classic.

Sizzling Hot™ Deluxe is an extremely popular video slot from Novomatic, and has long been one of the most played games at EnergyCasino. It is an online conversion of one of the most successful land-based slot machines - found in casinos all over the world - and has managed to retain the appeal and charm of the original. Sizzling Hot™ Deluxe is classified as a low-medium variance slot, making it very accessible and great for casual play.

A 5-reel, 3-row slot with just 5 paylines, Sizzling Hot™ Deluxe keeps things simple and straightforward. There are few features – it is just an honest fruit machine. There is a bonus gamble ‘red or black’ card game included, enabling you to gamble winnings ‘all or nothing,’ but that is all. The game console will be familiar to any Novomatic fan, with the usual payline markings and buttons (autoplay, payable, lines, bet/line, gamble and start). There is also a handy option to toggle between full-screen and normal aspect.

The minimum bet per line is 0.08, and the maximum is 20.00, making it easily accessible, but also appealing to the high rollers out there.

Simple, unadulterated fruit machine action and atmosphere.

Visually Sizzling Hot™ Deluxe keeps things very basic, and has a distinctly retro feel to it. The background is

made up of solid reds and purples, with metallic grey trim on the reels. The reels feature traditional fruit machine symbols: '7' being the highest scoring, followed by melons, grapes, plums, oranges, star (Scatter), lemons and cherries.

The symbols themselves are bright, two-dimensional and look like stickers, with white edges – though when you get a winning combination, they do 'set alight' with animated flames. Sizzling Hot™ Deluxe emulates the sounds of a traditional land-based slot machine, which further adds to the authentic gaming heritage, and if they do get annoying during a long session, there is always the option to mute it.

Sizzling Hot™ Deluxe is not trying to take on the latest crop of graphically sophisticated, feature-rich video slots, but rather brings the charm and playability of the original land-based game to an online platform. When viewed in that context, it is a top-notch slot, offering pure, unadulterated gaming to players at EnergyCasino. If you are craving the feel and excitement of an authentic land-based fruit slot, then Sizzling Hot™ Deluxe is definitely the game for you.
